

# Ascension Theory, Sleepers (One Flies Away)

Sleep now my true love  
You would not be woken now  
We're so far away from home  
I will never leave you  
On the edge of the night

We live our lives  
Day by day  
In the hope that we survive  
Until the time  
One flies away  
So high, I will not cry

Once you stood faithfully  
You never asked for more  
All the dreams we shared  
And the plans we made  
Will never be lost again
