High explosive girl you turn me on
So volatile like a walking atom bomb (just like a walking atom bomb)
Just takes one spark to kerosene
You go off like natural glycerine (go off like natural glycerine)

The time is right to deviate
The supernatural cannot wait
I'll show you how to detonate

Coming up and rising from the flames
I've been born with fire in my veins

The time is right to deviate
The supernatural cannot wait
I'll show you how to detonate
Yeah!

Detonator
Detonator

Oh i'm in love baby, you're the bomb
