

Ash, Get Out

Get your money out, get your money out
Get your money out for me
If you get it out, get it all out
Get it all out you'll see
You've got so much to give, you've got so much to loose
It might seem just a little unfair, then you'll see that you cannot choose

Take a time out, take a time out
Take a time out for me
Get it out, get it all out
Get it all out and you see
You've got so much to give, you've got so much to loose
It might seem just a little unfair, then you'll see that you cannot choose

Get yourself out, get yourself out
Get yourself out for me
Get it out, get it all out
Get it all out and you see
You've got so much to give, you've got so much to loose
It might seem just a little unfair, then you'll see that you cannot choose
You've got so much to give, you've got so much to loose
It might seem just a little unfair, then you'll see that you cannot choose
