

Ash, I Need Somebody

I can't be myself, when I'm alone
I think stupid things, when left on my own
I need someone to be around
Someone to play up to, to fool about
I need somebody, to pick me up

[Chorus:]
I need somebody
Oh anybody
I need somebody
You know that it's you

I think out aloud, when there's no one around
I can't understand, why I ever get down
I need somebody to take me home
To the world I once knew, was formed on its own
I need somebody to see a smile
Knowing things will get better after a while

[Chorus]
Oh yeah it's you
