

Ashanti, Let's Go

It's Saturday night, I'm feeling so right
I wanna go see my baby cause I've been missing him crazy
It's been a long week and now you got me
Grab the keys to the car, drop the top and let's go

I wanna live it up, I don't wanna stop now
Just a little more, all the way down
Can you handle this?
What you waiting for?
Grab the keys to the car, drop the top and let's go

Let's go, /12x

I wanna drop everything and let's go
I wanna drop everything, I wanna drop everything
I wanna drop everything and let's go

We in the spot now, watch the models pop, now!
Me and my girls on the floor, I wanna party some more
I'm with whatever, I in a man mood
Grab the keys to the car, drop the top and let's go

I wanna live it up, I don't wanna stop now
Just a little more, all the way down
Can you handle this?
What you waiting for?
Grab the keys to the car, drop the top and let's go

Let's go /32x
