

Ashanti, Time Of Year

Christmas is the time of year
That we become as one
Tears of joy
Heart filled with love
Cause Christmas time has begun

There is nowhere else I would rather be
My family's here with me
Even though some of them are watching from above
I feel their love for me

Christmas is the time of year
You give your very last
Just to see that smiling face on someone that you love

And there is nowhere else I would rather be
My family's here with me
Even though some of them are watching from above
I feel their love for me

Christmas is the time of year
We want our loved ones to be here with us
And when we know they're far away
We try to make it so they're here to stay

Cause there is nowhere else I would rather be
My family's here with me
Even though some of them are watching from above
I feel their love for me

Christmas is the time of year
When lovers hold each other tight
From one kiss that let you know
We're glad to be together on this night

And there is nowhere else I would rather be
My family's here with me
Even though some of them are watching from above
I feel their love for me

Merry Christmas!
