

Ashanti, Touch My Body

Can you?
Can you?
Can you?
Can you?

Can you touch my body,
make me feel like I've never felt
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
Can you touch my body,
make me feel like I've never felt?
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
What have I got to do
to get a little closer to you?
To you
I've been watching you,
I really wanna get to know you
Know you
I'm kinda feeling your vibe as I look in your eyes
And you're watching my thighs moving left to right
So what do you wanna do?
You come to me and I'll come to you
Can you touch my body,
make me feel like I've never felt
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
Can you touch my body,
make me feel like I've never felt?
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
If I could be alone with you,
this is what I would do
I would do
I would grab you by the hand and begin to show you
Show you
How to make it real hot, never want it to stop
Take it up to the top,
make my body rock
So what are you gonna do?
You come to me and I'll come to you
Can you touch my body,
make me feel like I've never felt
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
Can you touch my body,
make me feel like I've never felt?
Deliver it,
make me shiver from head to toe

Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
Now, can you rocket up, rocket up?
Don't stop, just move your waistline from side to side
Now, why don't you push it up, push it up?
And do the body right
Do the body right, do the body right
Now, can you rocket up, rocket up?
Don't stop, just move your waistline from side to side
Now, why don't you push it up, push it up?
And do the body right, do the body right, do the body right

Can you touch my body,
make me feel like I've never felt?
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight
Can you touch my body,
make me feel like I've never felt?
Deliver it,
make me shiver from head to toe
Move my waistline side to side
Come on, push up on me,
I'm feeling hot tonight

Can you?
Can you?
Can you?
Can you?
