

Asher Roth, Be By Myself

I gotta be by myself
gotta be by myself this time
In the backseat screaming out loud (hooo}
In the backseat screaming out (hooo}
Ash is young, attractive
Handsome bachelor, awesome rapper
got a knack for, vernacular
When I perform, spectacular
I'll have any girl that i want
I'ma take the girl in the front
Boobs bounce when I tell the crowd jump
Honey come backstage I just wanna have fun, but
I'm too young to be locked down, not now
Need a new car, drive around with the top down
New broad with a bra the top down
Chillin in the backseat screaming out loud
[Asher Roth & Cee-Lo "Be By Myself" Lyrics]
She wants to be my lady
But I don't see her
She wants to be my lady
But I'm a free bird
I gotta be by myself, gotta be by myself this time
I gotta fly by myself, go get high myself this time
The cycle is Shawn Michaels (heartbreak),
And yeah I like you but not enough to wife you
You say I'm nice, true, and you think I'm the right dude
But there's another girl just like you (like who?)
And on the road, 'nother night , 'nother show
New e-vent in a new time zone
And the live show is so mind-blowin
And it's my show so you know I'm blown (you know)
No text's gonna give me head
Long distance just ain't my thing
Young single don't need no ring
I'm a free man now I don't need no strings, sing
[Asher Roth & Cee-Lo "Be By Myself" Lyrics]
She wants to be my lady
But I don't see her
She wants to be my lady
But I'm a free bird
I gotta be by myself, gotta be by myself this time
I gotta fly by myself, Go get high myself this time
If you're cool with nights at the pool
Jacuzzis and groupies, boobies and booze
And no rules, I'm only 22
I need to watch football and hang with a crew
But if you don't get mad when I get fat
Cuz all I do is eat drink smoke weed and rap
And play Madden, then dag
you're pretty rad and I take it all back, come on
She wants to be my lady
But I don't see her
She wants to be my lady
But I'm a free bird
I gotta be by myself, gotta be by myself this time
I gotta fly by myself, Go get high myself this time
just keep clappin the hands, it feels good
feels nice and warm in here right now
I'm feelin free
If you feel free clap your hands
Ahh, ahh come on
