

Ashley Hamilton, Get With Me

You say your life is gettin you down
Ego's threatenin to kill ya
I don't how you come around
I'd say it all sounds too familiar

(bridge)
So if ya wanna make a change in your life
Together we can make it alright

(chorus)
Ya wanna have some fun and get away from the crowd
Ya wanna make some noise, ya better play it loud
Ya wanna have it all, well this is how it's gonna be
I say ya better get with me

I know a place where we could go
Far away from this crazy town
We've learned all we need to know
There's nothing left for us to hang around

(bridge)
So if ya wanna take a ride with me
Then open up and let me in

(chorus)
So if ya wanna make a change in your life
Together we can make it alright

(chorus x2)
