

# Ashley Stove, Don't Wreck Your Car

Morningshine

I don't see your kind much but I like it like this

If you wreck your car

I won't get to see you in the morning

If I was a fly on the wall

I'd watch over you like a fly would do

I'd show you how

To make the air a force field around you

Your car is a comet

I put a spell on it

A force field around you

Paint glass metal

Kiss kiss a pedal

Magic car haiku

But I like it like this
