

Ashley Tisdale, Me And You

I know I'm just the average girl
But I think I can use a little hook-up with you

CHORUS

Me and you are meant to be
The stars shine on me and you
Telling me we're meant to be
But I know we're meant to be
Your so perfect for a girl like me
Me and you are suppose to be together
chorus

I can't say I hate you
I can say I love you

You can't say you love me
Why try hooking up with you
You've got the charms but
I can't be with you cause
I know you hate me and I don't
At the end you come up and say we're meant to be
No way to know for sure your lying
Me and You, oh whoa
I know I make mistakes
Me and You, oh whoa
I try not to be a hore
Me and you are meant to be, oh, whoa
