

# Ashton Shepherd, The Pickin' Shed

Hey, hey now  
Don't you want to come down  
Bring your guitar  
Here we play music with our own sound  
A lot of our friendship  
And music's been born and bred  
Right here in our backyard  
At the pickin' shed

I remember the first time I walked through the door  
I felt at home, though I'd never been in there before  
The band was playing and I sang a few songs  
I got to admit, I been hooked from then on

Hey, hey now  
Don't you want to come down  
Bring your guitar  
Here we play music with our own sound  
A lot of our friendship  
And music's been born and bred  
Right here in our backyard  
At the pickin' shed

It's the place we built for the music that we play  
Or you can shoot pool or you can throw darts any day  
It's like our own private bar that's open every night  
There ain't no closing time and no rules to go by

Hey, hey now  
Don't you want to come down  
Bring your guitar  
Here we play music with our own sound  
A lot of our friendship  
And music's been born and bred  
Right here in our backyard  
At the pickin' shed

And there's never any pressure  
You can just relax  
And if you ever hang out here  
I bet you're gonna come back

Hey, hey now  
Don't you want to come down  
Bring your guitar  
Here we play music with our own sound  
A lot of our friendship  
And music's been born and bred  
Right here in our backyard
