

Ashtray Hearts, Disaster

Ashtray Hearts

Old Numbers

Disaster

There's room in this house
for another little girl
to take up the chair
I saved for you

Theres still room in my day
for another change of heart
to avoid a disaster
Like the one we went through
On your only off day

Theres room in this year
for a capital address
while planes take their
turns coming in

There's still room in my day
for another change of heart
To avoid a disaster
like the one we went through
But you cant claim to know me now
Cause the things I said
A country ago
They don't count

Ill take modest over modern
Hope over faith
I take comfort in the things that can't wait

I take comfort in the things that can't wait
