

# Asia, Reality

(Downes/Payne)

It's down your wire, it's on your screen  
Pirate satellite, next to MTV  
Insert your hand, subscription free  
It's reality

Put on the suit, connect the chord  
Free mind of city life, just ecstasy  
Don't block the flow, only you can see  
Your reality

And as the programme runs surely to the screen  
You can't hold back, you're in

Reality - so virtual  
Reality - machinery  
Designed by me, but physical  
Reality, just anything you want to see

Is it wrong it's in your mind  
Banned by the chosen ones, how they rule your life  
Exit that page, enter brave new world  
From reality

And as the programme runs surely to the screen  
You can't hold back, you're in

Reality - so virtual  
Reality - machinery  
Designed by me, but physical  
Reality, just anything you want to see
