POWER TO THE SMALL MASSIVE x4

No need to separate, instigate 2 minds

Freedom of speech think ur robbin' us blind

All ur facts is Fiction try 2 misguide the signs

Coz it's ur time fall n it's our time to shine

Power to the small massive

Get up it's time to get active

We come with a brand new style

Invasian on the mike u need to

Open your mind in order to survive

Accept the fact next generation has arrived

POWER TO THE SMALL MASSIVE x4

You had the warning warning but you just stepped back into line

Misinformation overload slamming brakes on your mind

Reversing evolution further and further back in time

But when the world creeps up behind you you can't cover your eyes

Lightning conductors

Volcanic eruptors

Stealing your thunder

We're watchin' you all

The spirit that guides us

Is burning inside us

Flowing between us

Give it up for the small

Power to the small massive

Get up it's time to get active

We come with a brand new style

Invasian on the mike u need to

Open your mind in order to survive

Accept the fact next generation has arrived
