

Aslyn, You Got Me

Dont wanna bite another nail and leave this hangin
Dont wanna wait another night with you breakin
Dont wanna know just how it feels ot see you leavin
But i cant keep it to myself when your thinkin...

You got me bad,

You got me good,

You got me had,

You got me hooked,

When its me hangin by a moment that you snubbed along the way

Dont wanna lead you down a road that im not goin

Dont wanna hear about that dream without you knowin

I really dont have left a care but dont wanna feel guilty

Biting the bullet im aware your still believing...

You got me bad,

You got me good,

You got me had,

You got me hooked,

When its me hangin by a moment that you snubbed along the way

You got me close

And then you jump

My feet got cold

Took all the fun

And so i bite my lip and bear a smile but wont regret i dont stay awhile

You wanna think you got this bagged and that i couldtn want you more

But be aware that when im not there do you think you'll be so sure...you think you'll be so sure...thi

You got me bad,

You got me good,

You got me had,

You got me hooked,

When its me hangin by a moment that you snubbed along the way

You got me close

And then you jump

My feet got cold

It stole all the fun

And so i bite my lip and bear a smile but wont regret i dont stay awhile

[repeat]
