

# Asobi Seksu, Glacially

Follow me wherever we are going  
Hold your breath Im running up these stairs alone  
Even we will grow up and be lonely  
Having a miss for hopes and places we belong

Hushed in silence we lose our way in the dark  
Starting, stepping we keep going too far  
A crash is flowing while my heart is sinking in place  
Hushed in silence we get up losing our way

Sneak away for talks out on the hillside  
When you go home Ill look for where youre hiding  
Even when we grow up and are lonely  
Hold your breath Ill run to where youre calling me

Hushed in silence I lose my way in the dark  
Starting stepping we keep going too far  
A crash is flowing while my heart is sinking in place  
Hushed in silence we get up losing our way
