

# Ass Ponys, Azalea

his legs they won't support him now  
that he's near half a ton  
but he remembers very well  
a time when he could run  
they ran around her bed  
she chased him around her bed  
azalea

he doesn't fit behind the wheel  
so he just stays inside  
but he remembers very well  
a time when he could ride  
they rode around the bend  
she rode around with him  
azalea

they found him on the kitchen floor  
they said it was his heart  
but i remember very well  
the way he came apart  
her name was on his lips  
her name was on his lips
