

Ass Ponys, Hagged

The night terrors are upon you
Pressing on your chest
Don't worry, I believe you

You were hagged last night
A girl without a face
From her cold embrace
You sat bolt upright

The night terrors won't forget you
They will come again
When you're sleeping and when they do

You'll be hagged that night
A girl without a face
From her cold embrace
You'll sit bolt upright
