

# Astarte, Dark Infected Circles (Outbreak)

Mourn the silence again  
Sic your fate as I rise,  
Blaze tears and grace  
Karma shows the end

Nightfall shadows, Death embraced  
Awakes human fear

Arise Spirits of Dead  
Awakes the shadows of Hell

Nocturnal maze of death  
Creeping bodies  
Sound of silence, arise

Outbreak, burn my mind  
Madness, Dark inside.  
Outbreak, Motherfucker die  
Outbreak, time to face the pain.

Epilogue:

Wide open delusions of unconscious  
Blackness already trap me inside  
Release temptations and unger  
What left shall generate the future
