Step and do it alright(?)

Oh no, you'll never let the music stop
I want just one more dance with you
So let the music play on and on, on and on and on
I say I feel vibrations
I wanna know, are you feeling the same way too
Oh little woman, are you?

It's so nice
I wanna feel the same thing twice
It's so nice
I wanna feel the same thing twice

Where ever we go we know the trouble will find us
So pick us above, now woman a leave your worries behind you

Dance to the music, 'cause you know that is fine
Even know a culture though they trying to hide

In day only knew I would feel a when we dance to Jah music
One thing I know is they would love to feel it too
Tonight the feeling is fine
Tonight the feeling alright

So Mr.DJ don't stop the music
I said we're going on the way and we don't want no bus
Morning time comes we'll just get on that fast
No trouble no fuss, I and I
