

# ATB, Here With Me

You're the one that turns me on,  
Been "waiting for you" oh so long  
Can't believe that it's you are here with me

You're the one that turns me on,  
With someone else it feels so wrong  
Feels like you've been gone an eternity

I want to start anew  
Never see it on with you  
It would be over again with your loving taunt  
I want to start anew  
We were never really through  
Can't believe that it's you are here with me\*
