

ATB, Here With Me

You're the one that turns me on,
Been "waiting for you" oh so long
Can't believe that it's you are here with me

You're the one that turns me on,
With someone else it feels so wrong
Feels like you've been gone an eternity

I want to start anew
Never see it on with you
It would be over again with your loving taunt
I want to start anew
We were never really through
Can't believe that it's you are here with me*
