

ATB, Let U Go (Clubb Mix)

I've been to all
I've been to all
I've been to all
I've been to all the familiar places
I've been running like a sentence never begun
I've been looking for a way to let you know
I got nothing left to fill the spaces
I got nothing but a center coming undone
I've been doing circles and it shows
I've been to all
I've been to all
I've been to all the familiar places
I've been running like a sentence never begun
I've been looking for a way to let you know
I got nothing left to fill the spaces
I got nothing but a center coming undone
I've been doing circles and it shows
Every cloud in the sky, every place that I hide
Tell me that I, I was wrong to let u go
Every sounds that I hear, every thoughts that I feel
Tell me that I, I was wrong, I was wrong to let u go

I've been to all
I've been to all
I've been to all
I've been to all the familiar places
I've been running like a sentence never begun
I've been looking for a way to let you know
I got nothing left to fill the spaces

Let u go
Every cloud in the sky
Every sounds that I hear
Every cloud in the sky
Every sounds that I hear
