ATB, Still Here

I never knew life could be this way

Life without you

I never knew life could be this strange

Like a sky that isn't blue

I know you're still here

I know you still care

I know you follow me places only you and I would share

You know you're my love

Know that I always cared

I may have been away without you

But my heart was always here

Never forget

I never left

Always there in the shadows

Hard to believe

Because you couldnt see

Always there when I mattered

Im still here x4

I never meant to fall this way

So much to sacrifice

I never thought life would pass away

And at such a high price

Feel were still one

That love hasnt gone

I sense everything about you

Around me when Im alone

Know that youll always be

Deep in the heart of me

No matter where I am today

Youll always be a part of me

Never forget

I never left

Always there in the shadows

Hard to believe

Because you couldnt see

Always there when I mattered

Im still here x4
