

ATB, Summer Rain

She puts a smile upon your face
Every time you see her
She comes running through your veins
Just like summer rain
Like summer rain

She puts a smile upon your face
Every time you see her
She comes running through your veins
Like summer rain
Just like summer rain

She builds you up
And tears you down
She's that queen without a crown
She is where I wanna be
Sometimes coming over me

Sometimes coming over me

And just like summer rain
Like summer rain

Sometimes coming over me
over me
over me

just like summer rain

Sometimes coming over me
over me

like summer rain
