ATB, Summer Rain

She puts a smile upon your face Every time you see her She comes running through your veins Just like summer rain Like summer rain

She puts a smile upon your face Every time you see her She comes running through your veins Like summer rain Just like summer rain

She builds you up And tears you down She's that queen without a crown She is where I wanna be Sometimes coming over me

Sometimes coming over me

And just like summer rain Like summer rain

Sometimes coming over me over me over me

just like summer rain

Sometimes coming over me over me

like summer rain
