

ATB, What About Us

As a matter of fact, theres no turning back
Though I cant deny, I still want you back
No confidence, just hide and seek
Your weapons blood, is security
What about promises, and what about the days Im missing
What about, what about, what about us
What about the time of our lives
What about the things that you had
What about, what about, what about us
Im waiting for you [4x]
Im waiting
Its time to let go
Im waiting for you (what about, what about, what about us..)
[2x]
As a matter of fact, theres no turning back
Though I cant deny, I still want you back
No confidence, just hide and seek
Your weapons blood, is security
What about promises, and what about the days Im missing
What about, what about, what about us
Im waiting for you [2x]
What about, what about, what about us [2x]
As a matter of fact, theres no turning back
Though I cant deny, I still want you back
No confidence, just hide and seek
Your weapons blood, is security
What about promises, and what about the days Im missing
What about, what about, what about us
What about the time of our lives
What about the things that you had
What about, what about, what about us
