

# Atlantic Starr, Silver Shadow

Silver shadow  
Glowing shadow  
Shining brightly  
For all to see  
I remember gazing on this quiet night  
The stars were bright as they could be  
Wonderin' if things would ever go right  
And if there was a spot up there for me  
Then one star got brighter by the minute  
Strange that it seemed to have my name written in it  
I reached for the star and it kissed me with its light  
It made me cast a shadow that was silver and bright

Silver shadow  
A glowing shadow  
Shining brightly  
For all to see  
I never had any real reason  
To thank my lucky stars  
But now I've got a pretty good reason  
'Cause I know I'm gonna go far  
I believe in magic, I really do  
With all that's happened, it's got to be true  
I cast a silver shadow from the kiss of the light  
I knew that I was destined starting with tonight

Silver shadow  
A glowing shadow  
Shining brightly  
For all to see  
  
Silver shadow  
My future's shadow  
Trying to tell me  
Of the star I would be  
Since I was chosen among the rest  
I dedicate myself, I'm gonna be the very best  
And my shadow forever silver will remain  
And the world will always remember my name

Silver shadow  
A glowing shadow  
Shining brightly  
For all to see  
Can't believe I cast a silver shadow  
Silver shadow  
My future's shadow  
Trying to tell me  
Of the star I would be  
Hey, yeah  
You're my shadow love  
Silver and bright, a sparkling thing  
Look at my shadow glow  
Think I'm gonna be a star, whoa, whoa, whoa, whoa  
Look at my shadow glow  
Glowin' so brightly, this wondrous thing  
Look at my shadow glow  
Look at my silver shadow, shadow, shadow, shadow
