

# Atmosphere, Shh....(Slug)

i wanted to make a song about where im from  
you know  
big ups my hometown  
my territory  
my state but,  
i couldnt figure out much to brag about  
well, prince lives here  
we got ten thousand lakes  
but wait  
the women are beautiful  
to me they are  
and were not infested  
with pretentious movie stars  
and it hit me man  
minnesota is dope  
if only simply for not what we have  
but what we dont  
its all fair  
it aint out there  
its in there  
its in the mirror  
behind the breast  
under the hair  
follow the dream  
doesn't mean leave the love  
roam if you must  
but come home when you've seen enough  
i love new york and cali  
but i aint movin  
too over populated  
saturated with humans  
and im not big on rappers, actors, or models  
if i had to dip  
id prolly skip to Chicago  
None of this  
next to this  
no one  
no where  
like damn im from minnesota  
land of the cold air  
too many mesquitoses and a fair share of egos  
but like my man Sabe says  
thats where my mommy stays

so if the people laugh and giggle when you tell em where you live  
say shh...say shh..  
and if you know this is where you wanna raise your kids  
say shh...say shh..  
if your from the midwest and it doesnt matter where  
say shh...say shh  
if you can drink tap water and breathe the air  
say shh...say shh...

Got trees and vegetation in the City i stay  
the rents in the mail  
and i can always find a parking space  
the women out number the men two to one  
got parks and zoo's and things to do with my son  
the night life aint all that  
but thats ok  
i dont need to be distracted by the devil everyday  
and the jobs aint really hard to find  
infact, you could have mine if you knew how to rhyme

This is for everyone around the planet  
that wishes they were from somewhere other than where they're standin  
dont take it for granted  
instead take a look around  
quit complainig and build somthing on that ground  
plant somthing on that ground  
dance and sleep on that ground  
get on your hands and knees and watch the ants walk around the ground  
make a family  
make magic  
make a mess  
take the stress  
fill your motovation  
and build your nest  
it sucks that you think where im from is whack  
but as long as thats enough to keep your ass from comin back  
and with a smile and a hint of sarcasim he says  
I beg your pardon, but this is my secret garden

In the land of ice and snow  
In the land of ice and snow  
In the land of ice and snow

so if the people laugh and giggle when you tell em where you live  
say shh...say shh..  
and if you know this is where you wanna raise your kids  
say shh...say shh..  
if your from the midwest and it doesnt matter where  
say shh...say shh  
if you can drink tap water and breathe the air  
say shh...say shh...  
if the playground is clear of stems and syringes  
say shh...say shh...  
and if theres only one store in your town that sells twelve inches  
say shh...say shh...  
if no one in your crew walks around with a gun  
say shh...say shh...  
and if you aint gonna leave cause this is where your from  
say shh... say shh...
