Your so-called "Free Trade"/
Benefits from the slave/
Relationships that you made/
With under-developed nations/
Been doing the same, cause that's your way/
Ever since the days/
They exchanged sugar for slaves inside your trade/
...And today you're pushing aid/
In the form of foreign investments/
But it don't make sense/
Cause if you're gonna make a profit, it means that you get/
More money exiting the colony than you ever sent/
In terms of wages and the construction costs spent/
And so you get a net flow of wealth/
From the poor to the rich/
From the shores of Ecuador to Madrid/
The same basic economic domination persists/
Now you flood their markets with cheap goods/
So the native industry can never develop the way it should/
Yo/
We part ways on progress/
I'd rather follow the path and method envisioned by Hugo Chavez/
