

Atomic Kitten, So Hot

Flash lights movin' hot bodies groovin'
I knew there was love in the air
Anticipation, my heart is racing

I'm yours for the night if you dare

If you wanna do it
make your move right
If you want me baby
keep me in your sight
Ain't no use in fighting
cause my mind's made up,

You get me so hot, don't you wanna...

Chorus

Dance to the music all night
Party till the dawn when the sun comes up,
Kiss goodbye to the moonlight,
You got me feelin' hot,
Please don't ever ever stop

Repeat Chorus

Now I know I've got you
exactly where I want you,
And all of your defences are down
My body's cravin' why the hell you waiting
A fantasy is what I've found

If you wanna do it
The time is now
If you want me baby
I can show you how
Ain't no use in fighting cause my mind's made up
You get me so hot, don't you wanna...

Repeat Chorus x2

Gonna take you where you've never been before
I wanna freak you down in all the right places
Gonna make you feel like you never need me more
Make me hotter than no-one you ever tasted (tasted, tasted)

Repeat Chorus x3 till music fades
