

# Atomic Kitten, Wild

Baby come on...

Wild, oh wild don't you say what you want to say.

Tell me why, oh why don't you say what you want to say.

Hands going round and round.

Motions going up and down.

You've been seeing all over times (why do you playing these games).

Feeling like a vulcane, don't think I can take the pain.

No love, just confusion drives me wild.

Still running, has turning, fast burning,

won't you let me get inside?

I'll take him, to brake him, stop faking.

Tell me what you gotta high.

Say it's love.

This confusion drives me wild.

Cry, oh cry I'm so sick of crying over you.

I won't cry, I won't cry and I know I get over you.

Hands going round and round.

Motions going up and down.

You've been seeing all over times

Feeling like a vulcane, don't think I can take the pain.

No love, just confusion drives me wild.

Still running, has turning, fast burning,

won't you let me get inside?

I'll take him, to brake him, stop faking.

Tell me what you gotta high.

Say it's love.

This confusion drives me wild.

Say it's love.

This confusion drives me wild.

Ohhh, ohhh...

This confusion drives me, drives me wild (yeah, yeah)

No love, just confusion drives me wild.

Still running, has turning, fast burning,

won't you let me get inside?

I'll take him, to brake him, stop faking.

Tell me what you gotta high.

Say it's love. (say it's love)

This confusion drives me wild.

Say it's love.

This confusion drives me wild. x5
