

# Atrocity, Defeated Intellect

I left cocaine - going insane  
My first time - I want to try  
I lock the door - I'm really sure  
Now I'm alone - the needle in me skin  
Defeated intellect - I lost my mind  
I know all dangers - but I need more  
I inject - now it's too late  
Fantastic feelings - coming to ecstasy  
Lying in the room - she closes her eyes  
Fast faving blood - in her veins  
Falling apart - total  
Point of no return - shall overcome  
There is no serious reason  
To give ut my decision  
I live my life today  
I give a shit on any corollary  
Your body is shaking, freezing, perspiring  
Opening your eyes, having reveries  
Walls look like ice, cold and glinting  
The shining sun, reflected lights  
You cannot act, you have no will  
Controlled my poison, sudenly you scream  
Father returns: "Get on your knees!"  
Breathing heavily - oppressive atmosphere  
Whispering voices - in your ears  
Having red eyeballs - and a dry tongue  
Attack of giddiness - head is going round  
People on the street - walk, rush and speak  
Eat, drink, consume - money takes control  
They don't care - about you  
No time to think - to help for you
