

# Atrocity, ... In My Veins

Fullmoon night in disguise, I look up to the eternal skies  
My mind infected evil, live my life not only twice  
I have wakened all the pain which grove the world insane  
You see the infernal black, you know me, I bring you  
Down, down on your knees  
you're tasting the disease, you see  
Never cross my ways  
Death, Death in my veins  
Hate, Hate in my eyes  
Your life was ended  
When you surrendered  
Just by my fingertip  
Death& Death in my veins... in my veins  
"Wherefore, O king let my council be accepted unto thee  
and break off Thy sins"  
Eyeball like fire, pain and desire, you're feeling the reging hate  
Endless enduring, godforsacen creature, along to survive  
Death, Death in my veins and I send yuou to your doom,  
dwelt your mind.  
Rape your soul, I like you to consume,  
endlessly in the dusk,  
All night I hear you scream  
Death, Death in my veins  
Like an one thousand year darkened  
dominion - The field of the dead seed  
Burnt and withered, you would never  
consider to an once prospering land  
Day is night and night is day  
In the kingdom of the dead.
