

Attak, Play The Ace

Play your life like a pack of cards
With us as the ace and them as the joker
Life's a gamble so if you don't take a chance
That hand you've got will get you nowhere
But play it safe and don't give in
Fight so strong and be so brave
You'll end up winning in the end
Send the jokers to an early grave
Play, play, play, play, play the ace
Fight, fight, fight, fight, fight the joker
But if your hand can't fight back
You are the one they'll start to crack
They'll cut you up and deal you out
It's no use now when you can't shout
We are the no-ones to be cast aside
They are the hell in which we hide
Hide no more come out and face
The ones who dwell in this damned place
Play, play, play, play, play the ace
Fight, fight, fight, fight, fight the joker
