

# Audio Adrenaline, Life

(Baby crying)

(Chorus)

Life, too much to do and too much strife  
Life, your girlfriend left ya and it cuts like a knife  
Life, seventy years of a nagging wife  
Life, you look in the mirror and it's Barney Fife!

Life is a series of impossible dreams, yeah  
Full of dissapointment and it ain't what it seems  
Everybody's pulling you a different way  
You want to close your eyes and make it all go away  
But what ya gonna do when the rent comes due  
And the dollars in your wallet are numbered few

Or your neighbor comes knockin on your front door  
He wants the mower that ya borrowed  
The night before your garage burned down  
Your boss is screaming  
Cause he walks in your office and  
He found you on top of your desk asleep  
But what you gonna do, that's life!

(Repeat Chorus)

You wrecked your buddy's car  
And you cracked your head  
It wouldn't have happened if you looked ahead and braked  
But your mind was racing  
Cause you were thinkin  
About chasing that girl who turned you down  
Everybody's talking about it  
all over town  
But then things just get worse  
You look in the mirror and think it's a curse  
Your hair it's falling out  
All over the pillow and all through the house  
But what you gonna do, that's life!

(Repeat Chorus)

(Bridge)

Life is a dirty trick  
If you listen to the devil's lies  
But, life is another man's treasure if  
He's given it up to Christ

Now wait a minute buddy  
My ain't alone  
God said it all when  
He gave the world  
His only Son  
To die on the cross  
Just when you think all is lost  
There's hope for all mankind  
Just give it to Christ  
And you can find life more abundantly  
And that's the only reason for life!

(Repeat Chorus)
