

Audio Adrenaline, My World View

I want to see the world through Jesus eyes
see through Jesus tears
I want to see the world through Jesus eyes
my vision's not as clear
I want to feel the world with the hands that made it
know the pain and appreciate it
hear their cries and hope to understand

CHORUS

My world view
it's how I see the world
it's how I look at you
My world view
it's how I see the world
would you like to see it to?
My world view

I want to place my foot upon the rock
the rock that doesn't move
For upon the rock the Kingdom's built
and here's the Kingdom view
I see creation and I see Adam's fall
I see through the years and I can see it all

All things come together for the good
