

Audio Adrenaline, See Through

I'm unstable and extreme
Good to bad I've been burnt in between
The smoke from the fire in my soul
Makes a transparent haze
There are things that I can't hide
That would make some people think I've lied
I try to do right but I fail
Don't set your eyes on me

I drive all night to sing this song
But I don't even care
Some people want a piece of me
But I've got none to share

Don't you know that God loves you
Don't you know that I try too
I've been known to miss my cue
Don't look at me I'm see through

I would love to be made perfect
But instead I have the grace of God
You should look through me
And you will see what I want to be
