

Audio Learning Center, Favorite

I bought your album
You're my new favorite band
I love that third song - yeah
Let's hear that one again
And I learned all your words
So I can sing along
You're my favorite band
You write my favorite songs

I listen to your music
in my room
Shutting out the world
just me and you

I hear you're coming soon
To my home town
I got my tickets as
Soon as they went on
And your music means
It means so much to me
Got me through some bad times
That you wouldn't believe

I listen to your music
in my headphones
I listen to your music
when I'm alone

I played you for some friends
And they loved you too
We're gonna start a fan club
And dedicate it to you
And we learned all your words
So we can sing along
You're our favorite band
You write our favorite songs

We listen to your music
in my car

I bought your album...
