

Audiosoulz, Let The Music Play (feat. KAZADI)

we're start to dancing
and love put us into the grove
as soon as we started to move

when the music pay
my body display to the dance
the love pick the sound of the mess

I thought it was clear
the plan was we're share
this feeling just between us
Sunday
but when the music changed
the plan was rearrange
we went to dance whit someone else

we're start to dancing
and love put us into the grove
but now its with somebody new
what does he want me to do?

Let The Music Play
you won't get away
just keep the groove and dance
come back to again
Let The Music Play
you won't get away
this groove can't ignore
you and me can't any more
