

Audioweb, The Other Side Of Life

Too dark for me
To walk side of
..... young and foolish
.....
Sellin' we've stolen
From the unwise
Who were not aware
Of the dangers and all
They're all under age
So the police
And there's nothing the law, the law
There's nothing the law can do

Chorus:
Other side of, other side of life
Is where you wanna be

Other side of, other side of life (x2)

There's no solution
For the chaos they spread
I'm standing on the corner
Standing scratching my head
Waiting for the
They really don't know
How gonna spread
The word that satan's dead

Chorus

It's got the key to your soul

Chorus
