Never known a girl like her
A thousand has the mind
..... sail she wants to
Never known a girl like her
With all the shows of
She hears the seas
And I'm

What's the use of words
Am I a fool to keep on trying, trying, trying?

She's sitting waiting for the sun
Waiting for the man (x2)

Standing in a line of many
Feeling I'm the only one
Never known a time like this

People kneeling all around
And craving for the of sun
Never known a place like this
And all the in the
Tell me that their life is theirs
And I've known this and I've to say

What's the use of words
I'm such a fool to keep on lying, lying, lying

I'm standing waiting for the sun
Waiting for the man
I'm standing waiting for the sun

She goes round and round and round she goes

She's sitting waiting for the sun
Waiting for the man, for the man
She's sitting waiting for the sun
