

Aura Dione, America

America
America
America

There's a rainbow exploding from my heart
Things that can grow wings must be smart
I have a dress made of stars and stripes
There's a secret city in my mind
I always look for things I cannot find
I was born to sing between the lines

All the dreams my father had he never got to do
He said go out into the world and I want the best for you
You're my daughter and I only want to see you shine

If you make it in America you can make it anywhere
If you make it in America you can take it anywhere

There's a rainbow exploding from my heart
Neon sings lighting up the dark
It all begins with an inner spark
You know you got to go

All the dreams my mother had she never got to do
She was a dancer but never got to follow through
But she's in me and I'm going to make her shine

If you make it in America you can make it anywhere
If you make it in America you can take it anywhere

The only way you'll ever know
Is when you dare to just let go
That's how they made it to the moon
Faith and love

If you make it in America you can make it anywhere
If you make it in America you can take it anywhere
If you make it in America you can make it anywhere
If you make it in America you can take it anywhere
