

# Aura, Petals From A Fallen Rose

(Aaron Nordquist)

Way up in the sky way up in the blue  
I saw a light that led me straight to you  
You kept saying dear one hold me tight  
And I held you all through the night  
We were together only a year  
I'm still wishing you were still here

Chorus

I lay here like a petal from a fallen rose  
Our love was so pure not long ago  
The days gone by I still wonder why  
I lay here like a petal from a fallen rose  
When I dream I'm once again with you  
Back when our love was something new  
I let you know who I adored  
Then you through my love overboard  
I lay here like a petal from a fallen rose  
Our love was so pure not long ago  
The days gone by I still wonder why  
I lay here like a petal from a fallen rose  
Soon we'll be together  
Yet I'm not yet beside you  
In my dreams I'll still enfold you  
My love still will guide you  
I lay here like a petal from a fallen rose  
Our love was so pure not long ago  
The days gone by I still wonder why  
I lay here like a petal from a fallen rose  
I lay here like a petal from a fallen rose  
I lay here like a petal from a fallen rose  
I lay here like a petal from a fallen rose
