

Aurora Borealis, Hydrach

Aurora, Holder of dawn, keeper of all in the sky
Aurora, Hail the goddess, creator of shapes in the night
Aurora, Shadow catcher, grace us with the ever changing light
Aurora, Ever shifting, ever chanting to the eternal sky song

Goddess of, I see all
Dawns break, make the rain fall
Day shall not come unless I say
Eternal dark maybe will stay
Goddess of, I see all
Dawns break, make the rain fall
Day shall not come unless I say
Eternal dark maybe will stay

Sister to the sun, like a fire burning bright,
watch and wait in wonder as I pain the night
Call upon the sons, winds north, south, east and west
Above the clouds is where none shall test me

No need to ask why, Into the dark I fly
Known since time began, soon you'll
see me again

Sky Dweller, Sky Dweller, Sky Dweller, Sky Dweller

Aurora, Holder of dawn, keeper of all in the sky
Aurora, Hail the goddess, creator of shapes in the night
Aurora, Shadow catcher, grace us with the ever changing light
Aurora, Ever shifting, ever chanting to the eternal sky song
