ATF, ATF, we don't need the ATF

There's an organization with dangerous views so the fighting soon erupts We could've asked what they believed if they hadn't been blown up But were their views dangerous to the people or the state Did they know the truth about the government based on hate ATF, ATF, we don't need the ATF

Their twisted reign of terror is the cause of many deaths
It's their twisted reign of terror that you willingly accept
Appointments made by Janet Reno help the blood-soaked ATF
Like Mark Richard who's made his life's career by covering up what's left
They claim it's national security so the publice never see
That this secret service bullshit's at the expence of you and me
ATF, ATF, we don't need the ATF

Their twisted reign of terror is the cause of many deaths It's their twisted reign of terror that you willingly accept If you cross our government then you may just disappear And become another statistic for the rest of us to hear If you keep on looking closer you may just find your death Compliments of our government and bastard ATF, ATF, we don't need the ATF BATF (Bureau OF Assasins, Torturers, and Facsists)
