Austrian Death Machine, Destroy The Machines (

Destroy
Destroy
Destroy the machines
In the future Skynet will become self aware
Cyberdyne Systems' creation will take over the planet
And eradicate the human race
We must destroy the machines
Destroy the machines

02:14 eastern time on August 4th 1997
Skynet became self-aware right after it's activation

Destroy the machines
Save humanity
Destroy the machines
Save humanity

Sarah Connor had warned us all
So we were able to delay it
But that did not prevent the end
Judgment Day now still awaits us

Destroy the machines
Save humanity
Destroy the machines
Save humanity

Destroy the machines
Save humanity
Destroy the machines
Save humanity

In the future Skynet will become self aware
A system of artificial intelligence
So powerful it cannot be stopped
If we act now we have a chance
We must destroy the machines

Our 1991 attack
Delayed destruction and changed the past
But we must still face the fact
AI will still become self aware and want payback

Destroy the machines
Save humanity
Destroy the machines
Save humanity

Destroy the machines
Save humanity
Destroy the machines
Save humanity
