Automatics, Monster

Brain fried tonight through misuse Through misuse, through misuse You can't avoid static abuse Abuse, abuse

Without these pills you're let loose You're let loose, you're let loose Take off, get out, no excuse No excuse, no excuse

What's that coming over the hill Is it a monster? Is it a monster? (4x)

Confused, mind bruised, it seeps out It seeps out, it seeps out Face down, home town looks so grey Looks so grey, looks so grey

Convexed you bend, twist and shout Twist and shout, twist and shout Stand up brush off get moving Get moving, get moving

What's that coming over the hill Is it a monster? Is it a monster? (x4)

Face down, home town, face down, home town Face down, home town, it looks so grey (x4)

What's that coming over the hill Is it a monster? Is it a monster? (x4)
