

Automorrow, Walk Away

We said we'd never be like this
But it was easy to forget
A walking shadow woke up in your room
Saying things you'd never say
You didn't notice I was watching you
I was walking away
I have always just been this way
This can no longer be the way it has to be
I said I'd never be like this
But it was easy to forget
A walking shadow woke up in your room
Saying things you'd never say
You didn't notice I was watching you
I was walking away
Pick it up now
Now pull this out
If you're gonna drag this out
We're gonna have this out
Won't you open both your vacant eyes
With all this time
You thought you wasted
I was walking away
